Appendix 2: Lithic Concordances, Location, and Previous Comments by Graeme Warren

Previous comments are those typed on the site catalogue.

Catalogue no	Previous ID	Location	Previous comments
1	SF 206	Cluster A (circular setting) under small flat stone at south edge where an upright has collapsed	Tiny flake of flint, probably worked
2	SF 241	Picked up on gravel surface of site 7 April 1962 by a boy on	Flint flake with secondary working along one edge
3	SF 71	Square A4, 4'6" from east towards south, 4'4" out, in ditch, against outside of wall, and 4" below top of wall	Is pitchstone? Prof George says this slag or fire affected
4	SF 236	? A2 found 1961	Not sent to Dr Lacaille
5	SF 236	? A2 found 1961	Not sent to Dr Lacaille
6	SF 236	? A2 found 1961	Not sent to Dr Lacaille
7	SF 236	? A2 found 1961	Not sent to Dr Lacaille
8	SF 236	? A2 found 1961	Not sent to Dr Lacaille
9	SF 236	? A2 found 1961	Not sent to Dr Lacaille
11	SF 236	? A2 found 1961	Not sent to Dr Lacaille
12	SF 236	? A2 found 1961	Not sent to Dr Lacaille
12	SF 236	? A2 found 1961	Not sent to Dr Lacaille
14	SF 236	? A2 found 1961	Not sent to Dr Lacaille
15	SF 236	? A2 found 1961	Not sent to Dr Lacaille
16	SF 236	? A2 found 1961	Not sent to Dr Lacaille
17	SF 236	? A2 found 1961	Not sent to Dr Lacaille
18	SF 109	Square A6, 6^\prime from west post towards south and 1^\prime into square	Stone ?thumb scraper type of tool. Data and drawing given by Prof G thinks natural. Tin reads 'all naturally scarred not artefacts'
19	SF 90	Square B2, north-west extension, 8' from A300 towards west post, 4'9" out, Layer 1, 6"below surface	Tin reads 'all naturally scarred not artefacts'
20	SF 22	Square B2, Area 3	Rock crystal fragment. Tin reads 'all naturally scarred not artefacts'
21	SF 63	Square A4 (somewhere near SF 64) surface, in association with charcoal and grain (from dump?)	Small flint chip. Tin reads 'all naturally scarred not artefacts'
22	SF 184	Square A8, filling of ditch, c 23" deep	Tin reads 'all naturally scarred not artefacts'
23	SF 195	Square B12, $3^{\prime}7^{\prime\prime}$ from west-south line, $2^{\prime}9^{\prime\prime}$ from south-east line, $13^{\prime\prime}$ deep	Flint with worked edge and flint flake. Matchbox reads '7 flints/natural and chips'
24	SF 55	Square A2, Layer 1	Flint reads '55a. Flints. One ?worked and three fragments'. Matchbox reads '7 flints/natural and chips'
25	SF 196	Square B12, $2^{\prime}4^{\prime\prime}$ from west-south line, $2^{\prime}1^{\prime\prime}$ from south-east line, $12^{\prime\prime}$ deep	Flint ?worked. Matchbox reads '7 flints/natural and chips'
26	SF 159	Square B9, $5'5''$ from north-east line, $4'7''$ from east-south line, $9''$ deep	Lump of grey flint, ?worked. Matchbox reads '7 flints/natural and chips'
27	SF 192?	Square B12, 7'9" from east-south line, 7'4" from west-south line, 10" deep	Flint, ?worked. Matchbox reads '7 flints/natural and chips'

59	SF 67	Square A2, north-west baulk, 16" from west post towards north, 6" out (extension into baulk near west corner), beside flat	Matchbox reads: 'artefacts, 5, B Red flint edge trimmed' (Prof G says may be jasper found Perthshire)
60	SF 205	Square B9	Lump of grey flint. Unworked
61	SF 82 (ADL #1)	Square B12, from wall, on south-east line and $5^{\prime}6^{\prime\prime}$ from south post, $6^{\prime\prime}$ deep	Flint with patina (also see Lacaille report)
62	SF 29 (ADL #2)	Square B2, north-west extension, 2'9" north-west of square and 4' along north-west line, Layer 1, 4" down	Chert or flint blade (also see Lacaille report)
63	SF 188 (ADL #3)	Square B12, 5'10" from west-south line, 6'3" from west-north line, 7" deep	Worked flint; and with flint chip (also see Lacaille report)
64	SF 60 (ADL # 4)	Square A4, Layer 1, no further details	Flint ?worked (Prof G says burnt; aAlso see Lacaille report)
65	SF 160 (ADL #5)	Square B9, 6'2" from east-north line, 7' from west-north line, 12" down	Small flint flake (also see Lacaille report)
66	SF 27 (ADL #6)	Square B2, north-west extension, 5'2" from north post and 3'8" out, 10" away from decorated slate (ref no 28), Layer 1 4" down (ie just under turf)	Flint blade (Prof G thinks Mesolithic)
67	SF 118 (ADL #7)	Square A2, west quarter 1' in and 3' along north-west line. It was lying loose on surface of the gravel and had not been [ed note: rest of text was illegible]	Dark red flake of flint worked on one edge. Drawing and location sketch dimensions given (also see Lacaille report)
68	SF 114 (ADL #8)	Square B3, south-east half, 4" deep	Grey flint flake (data given) with two unworked fragments, grey and with patina
69	SF 45 (ADL # 9)	Square B2, north-west extension, $3'6''$ from west post (towards west) and $4''$ in, Layer 1, $3''$ below turf	Flint tool (Prof G suggests Mesolithic; also see Lacaille report)
70	SF 176 (ADL #10)	Square B12, west corner, 2' from west- south line, 2'4" from west-north line, 5" deep	Worked flint (also see Lacaille report)
71	SF 168 (ADL # 11)	Square B9, $3'9''$ from east-north line, $5'$ from east-south line, $9''$ down in v bony soil	Grey flint tool (data given) (also see Lacaille report)
72	SF 19 (ADL #12)	Square B2, extension (cluster of stone, 2' square at corner post A 300), the worked flint was 5" below grass roots	Worked flint and two frags (spalls)
73	SF 108 (ADL #13)	Square A5, beside stone in post-hole at south corner	Small worked flint. Black. Data given
74	SF 44 (ADL # 14)	Square B1, $6^{\prime\prime}$ from south post towards east post and on line north-south, Layer (upper) 2	Worked flint (also see Lacaille report)

Catalogue no	Previous ID	Location	Previous comments
75	SF 114 (ADL #15)	Square B3, south-east half, 4" deep	Grey flint flake (data given) with two unworked fragments, grey and with patina
76	SF 16 (ADL #16)	Baulk square B2, Layer 2, 3'6" from A300 measuring towards west post' 7" in, 9" deep, 3'4" above gravel by cluster of small stones in charcoal and [ed note: rest of text was illegible]	Small red flint of borer type (also see Lacaille report)
77	SF 182	Square B12, $2^{\prime}7^{\prime\prime}$ from north-east line, $1^{\prime}5^{\prime\prime}$ from north-west line, $9^{\prime\prime}$ deep	Piece of quartz probably worked (also see Lacaille report)
78	SF 198	Square B3, $5'1''$ from west-south line, $5'4''$ from south-east line, $13''$ deep	Arran Pitchstone (also see Lacaille report)
79	SF 64	Square A4, beside wall in exploratory trench, Layer 2, 1' down	Black pitchstone nodule (identified by Prof G ; also see Lacaille report)
80	SF 116	Square B3, west quarter; 5'9" from west post towards north post and 3'1" in, 8" deep in brown topsoil among the small stones of wall foundations	Tool of Arran Pitchstone with white flecks (Prof G thinks from Eigg)
81	SF 171	Square B9, $6'11''$ from east-north line; $7'7''$ from east-south line, $12''$ deep	Flint blade; grey with white patina. 'Flint struck by a modern steel
82	SF 43	Square B2, north-west extension, Layer 1–2	Flint fragments. From large box
83	SF 51	Square B2, south-east baulk, 6' from north-east line, 11" from south-west line, Layer 2, just above [ed note: rest of text was illegible]	Flint fragment. From large box
84	SF 55d	Square A2, Layer 1	Flints: one ?worked and 3 fragments From large box $$
85	SF 30B	Square B2, north-west extension, near SF 29, Layer 1, $4''$ down	$4\ \mathrm{small}$ fragments of unworked flint. From large box
86	SF 30	Square B2, north-west extension, near SF 29, Layer 1, $4''$ down	$4\ \mathrm{small}$ fragments of unworked flint. From large box
87	SF 30a	Square B2, north-west extension, near SF 29. Layer $1,4^{\prime\prime}$ down	$4\ \mathrm{small}$ fragments of unworked flint. From large box
88	SF 19c	Square B2, extension (cluster of stone, 2' square at corner post A300), the worked flint was 5" below grass roots	Worked flint and two fragments (spalls). From large box
89	SF 20	Square A1, Layer 2, found $6^{\prime\prime}$ east and level with top of east end of big slab	Small flint fragments. From large box
90	SF 19B	Square B2, extension (cluster of stone 2' square at corner post A300), the worked flint was 5" below grass roots	Worked flint and two fragments (spalls). From large box
•	SF 24	Square B2, Layer 2, between Areas 3 and 6 $$	Flint ?worked. From large box
92	SF 35	Square B2, north-west extension, 6' north from west corner and 2' out, 9" down, Layer 2	Flint fragment. From large box
93	SF 23C	Square B2, Layer 2, between Areas 3 and 6	Worked flint, broken; and two fragments
94	SF 38	Square B2, north-west extension, midway along line between north and west posts, near charcoal and quartz	Small orange flint worked at one end.
95	SF 43	Square B2, north-west extension, Layer 1–2	Flint fragments. From large box
96	SF 56	No details	No details from large box
97	None	Unknown	Unknown
98	SF 114	Square B3, south-east half, 4" deep	Grey flint flake (data given) with two unworked fragments grey and with patina
99	SF 191	Square B12, $8''$ from west-north line, $6'8''$ from west-south line, $11''$ deep	Flint ?worked. From large box

Catalogue no	Previous ID	Location	Previous comments
100	SF 180	Square B12, 5'1" from north-east line, 2'9" from north-west line and 9" deep	Piece of honey-coloured flint, probably with secondary working. From large box
101	SF 208	Cluster A in soil filling	Pieces of quartz. From large box
102	SF 208	Cluster A in soil filling	Pieces of quartz. From large box
103	SF 208	Cluster A in soil filling	Pieces of quartz. From large box
104	SF 96	Square A3, 5' from east post towards south 2'11"	Small nugget of black flint or similar in; topsoil 6" down substance (Prof G things pitchstone but not certain). From large box
105	None	None	From large box
106	SF 11	Square B2, Layer 2, 7' along south-west baulk, 3'10" out from baulk	Flint frag and frag burnt bone. From large box
107	SF 209	Cluster A, from pebble area on east side, interior	Flint fragment, patinated. From large box
108	SF 36	Square B2, north-west extension, near south-west corner, Layer 1, 3" below modern turf	Brown flint. From large box
109	SF 231	Square B2, $3'3''$ from north-east line, $5'5''$ from south-east, $9''$ deep	Small flint (data and sketch). From large box
110	SF 233	Square B2, on south-east line, 3' from north-east line, 9" deep in subsoil	Quartz chip. From large box
111	SF 230	Square B4, 2' from south-west line, 2'9" from north-west line, 14" deep	Small piece flint unworked (data and sketch). From large box
112	Unknown	No location	None from large box
113	Unknown	Square B2, north-west extension	Flint chips. From large box
114	Unknown	Square B2, north-west extension	Flint chips. From large box
115	Unknown	Square B2, north-west extension	Flint chips. From large box
